## THE SPEAKERSHIP.

The dispatches state that Hanna has most emphatically denied that he intends to resign the chairmanship of the Republican National Committee. No one in particular, that we know of, ever supposed that he intended to retire from that position. He does deny, however, that he is taking any part in the contest for the speakership of the House, but is willing to abide by the decision of the Republican majority. No doubt but the latter part of the sentence is true, for he will have the making of the decision of such majority. The country may be sure that the Ohio boss will be the principal factor in the situation before the successor of Czar Reed is elected. Hanna may not yet have indicated his choice in the premises, but it is more certain than shooting that he knows what measur. of a man he wants in this most important office, and is passive now because he has not yet fully "size'd up" the candidates.

But when the proper time comes the boss will issue his order. The new Speaker may be Henderson, or Sherman, or Payne, or Hopkins, or somebody at present unmentioned, but he must be the most obedient servant of the Hanna-Alger-Egan political trust. He must be a man who can be depended upon to prevent any and every proposed investigation into the conduct of the War Department; who can be counted in favor of every pet scheme and job of the administration managers, and who has none of those independent traits which at times made Tom Read so troublesome a personality.

When Hanna decides which of the candidates most nearly measures down to the mark, he will make known his choice in his own irresistible way, and that man will be the Speaker.

EX-STATE PRINTER McCARTHY has been appointed book-keeper at the Insane Asylum. The people will now have to pay two men for the work one did last year. This, of course, will please the tax-payers.—Elko Independent.

Let justice be done, though the heavens fall. Mr. McCarthy is attending to the duties of supervisor and incidentally what book-keeping there is to do. The tax-payers in this instance are relieved of the burden of paying two salaries for what is easy work for one man, for "the which" their thanks are due to the portion of the Nevada press that protested against a sinecure position being created as a reward for political services in the last campaign.

"THE wish is father to the thought, when Republican organa say that silver is dead," says Ex-Senator DuBois of Idaho, and he might have added that those who claim that silver has been eliminated as a living political issue of the day, know that the Chicago platform will be reaffirmed by the next Democratic National Convention, as well as they know that the Republican party has cast aside the international bimetallic bimbing, and that it will go into the next campaign unreservedly and unequivocally pledged to the gold standard.

THE JOURNAL is in receipt of the report of the Second Annual Convention of the National Live Stock Association. It was published and presented to the association of the Denver Chamber of Commerce. It is an elegantly bound book of 500 pages, beautifully illustrated and is chock full of matter of interest to stock men and all others who realize the importance of that branch of industry and enterprise in the productive aggregate of the nation. The book also contains an interesting appendix of the resources of Denver, Colorado.

"SILVER DICK" BLAND is reported dying. His name is a household word wherever the silver cause has friends. He is a big-hearted, big-brained, big-fisted man; a typical inhabitant of the middle west; a product of the prairie country; one of the common people whom Hamlin Garland has described with such sympathy and accuracy. He has been a grand old man, and his death will occasion profound regret.—Salt Lake Herald.

IN NORWAY no woman is allowed to marry unless she knows how to cook. If such was the law in the United States there would be more old maids than you could shake a stick at—or rather, perhaps more than there are sticks for the old maids to shake at you.

THE Gazette man's political editorials are enough to make even the "JOURNAL cynic" laugh. Last night he declared that the reason why the Republicans did not throttle the trusts by exempting their products from the Dingley bill, was that the Democrats would have voted down the provision. The snickering comes in with the recollection that but one lone Democratic Senator voted for the bill, which Senator Teller declared was formulated, introduced and passed in the interest of the trusts, and that solitary Democrat was a goldbug sugar trust man from Louisiana.

Col. Maxson we believe is Chairman of the Republican County Central committee here, and as the Gazette is within his jurisdiction, he should, from a sense of party duty, if not in the interest of humanity, put a stop to such pitiful exhibitions of cranial density as appear periodically in the columns of his party organ in Washoe county.

AT the bimetallic convention in Louisville last week Wm. Jennings Bryan, just from the National Democratic caucus at St. Louis said: "The Democratic platform is strong because it is good in any part of the country. There used to be northern, eastern, southern and western Democrats, but now they are all Chicago platform Democrats, and I believe there is not a State in the Union where you would not lose more Democrats than you would gain by changing the platform."

## NOT INDISCRIMINATE SLUBBER.

But Due Credit Given for Meritorious Acts.

Probably the editor of the Tuscarora Times Review knows as much about the grievances of the miners in the eastern part of the State, in the matter of transportation of ore, as the great justice loving defender of their oppressor, around the corner. The Journal quoted the Tuscarora paper's article upon the subject approvingly, because the writer of this personally knew that the state of affairs described therein existed a few years ago, and, according to the editor's statement, exists at the present time. The JOURNAL gave due credit to the railroad company for the liberal terms it had made in the ore shipments from Oreana to Reno, and before the Gazette knew anything about it. It will be equally prompt in giving credit for fair dealing with other companies or individual shippers, as most of them are in the eastern part of the State and especially from the district where the Times-Review is published. So long, however, as the shipper of ore is compelled to show his assay certificate, that a valuation charge may be added to the tonnage rate, to or from any point on the Central Pacific line, the JOURNAL will not be the company's apologist for the outrage. We are confident moreover, that the editor of the Times-Review, who has valuable mining interests in his district, would hail with gladness an opportunity to change his words of condemnation to those of praise—and he wouldn't expect or receive political or other favors for doing so, either.

## K. of F. Grand Lodge.

The election of officers will take place at 11 o'clock to-day.

## New Assay Office.

Carl Stoddard has opened an assay office on Second street next to the JOURNAL building, and is prepared to make assays of all kinds of mineral ores and bullion. He is highly recommended by Prof. Jackson of the mining department of the State University and can be relied upon for correct certificates of all assays entrusted to him.

## BREVITIES.

Nevada will receive one of the canon captured during the Spanish war.

The Lode says there are plenty of laborers at De Lamar, but good miners are in demand.

Truckee will celebrate the Fourth. The Goddess of Liberty will be selected by popular vote.

Newton Roundtree and wife of Portland, Oregon, are visiting General Clark's family in Carson.

Nevada's political boss operates upon the presumption that the pull is more powerful than the press.

Carson is likely to have a lynching bee if the incendiaries who have lately made several attempts to burn the city are discovered.

The members of the Argenta Chapter Order of the Eastern Star at Virginia will entertain the Grand Lodge F. and A. M. next Tuesday evening, June 13th.

The Elko Tidings has again changed hands. Phil Trippett has severed his connection with it and has gone to Lovelock to accept a position on the Tribune.

Dr. Stubbs may well be proud of the University, and in return the State of Nevada at large is proud of his ability and the interest he has displayed in making the University one of the best institutions of learning on the Pacific Coast.—Austin Reveille.

The Sierra Nevada Lumber Company has been awarded the contract to furnish the lumber to be used in the construction of the paper mill near Floriston. There will be between 2,500,000 and 3,000,000 feet used in the construction of the buildings.

The original contractors for the grading of the railway between Truckee and Lake Tahoe have reconsidered their determination to abandon the job and are going on with the work. Preparations are also being made for the building of the bridge across Donner creek.

It may not be generally known that persons who fraudulently mail any other curio or article mail from the post-office that belongs to another and fail to return the same, are liable to a fine of \$500 or one year's imprisonment. This applies to newspapers thus taken from a postoffice as well as other mail matter.

## Men's and Boy's Clothing.

There must have been germs of mispronunciation lurking in the air, for at a later period in the service the vicar read out, "I publish the man's of bar-riage," etc.

The curate beamed with satisfaction in spite of the solemnity of the occasion.—Household Words.

## Exile Necessary.

Doctor—Your husband must have complete rest.

Wife—I know it. I talk to him seven or eight hours every day so as to keep his mind off business.

Doctor—On second thought, madam,

I conclude that the one chance for your husband is to take him to the hospital with instructions that no one but the trained nurse and myself be admitted

—Detroit Free Press.

## Arab Music.

Arab music has been described as the singing of a prima donna who has ruptured her voice in trying to sing a duet with herself. Each note starts from somewhere between a sharp and a flat, but does not stop even there, and splits up into four or more portions, of which no person can be expected to catch more than one at a time.

## Wasted Grandeur.

"Men are so stupid."

"Why do you say that?"

"We paid \$300 for our parlor furniture, and my husband wants me to keep the window shades pulled down at night."—Chicago Record.

## An Undesirable Distinction.

Mae—Why did you let him kiss you? Ethel—I didn't want to be the only girl he had never kissed.—New York Journal.

In the northwest provinces of India goats frequently eat without any ill effect the leaves and green stems of the "akaua" or "madar" (Asclepias, or Salotropis gigantea), the milky juice of which is an acrid poison for human beings.

In the way of useful advertising novelties, F. C. Spindler has hit upon a good plan. He has received a shipment of lithographed fans, which are truly gems of the lithographer's art. The constant crowds at his store during the present hot spell bears proof to the fact that Fred knows how to prepare his ice creams and soda water in a way that wins favor with our Reno people.

It has been demonstrated repeatedly in every State in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Wm. Pinniger.

## FROM THE NORTH.

Recent News Concerning the N.-C.-O. Extension.

IT WILL INJURE AMEDEE.

TWO HUNDRED MEN AT WORK—  
NEWS FROM THE BORAX WORKS.

The many conflicting reports concerning the prospective terminus and present condition of the N.-C.-O. railway extension being built north from Amedee lead to desire on the part of the public to get at the facts so far as they are known or may be determined. Diligent inquiry has failed to reveal the plans of the company, as all employees maintain a stoical silence when approached on the subject; but from other sources we are able to learn that the road will probably be extended as far north as Madeline Plains, Lassen Co., California, before winter, where a station will be established and the work of construction suspended for a time. The road will not run through Secret Valley as at first supposed but will run through the Snowstorm pass. About 200 men are at work, and the end of the road now lies about 18 miles north of Amedee, not 40 miles, as incorrectly reported. From now on the work will progress rapidly, as a comparatively level country is to be crossed.

The town of Amedee will suffer greatly because of the extension and if the stock yards are moved farther up the valley, as is expected, the now thriving village will soon be numbered among things of the past, for it will die a natural death in the course of a short time. However, if the town is allowed to retain the stock yards it will continue to live, although in a crippled condition.

At present Amedee is booming; it is the base of operations in the railway enterprise. Capitalists and railroad magnates may be seen upon the streets; the saloons, hotels and merchants are all doing a thriving business. This would lead a casual observer to form an opinion that the town has a brilliant future before it, but alas, we fear that all this bustle and activity is but the rally before death.

The management of the railway extension has had four heavy special locomotives built in the east, they are expected to arrive daily. They are to be used for construction purposes. The smaller engines now in use will be discarded, as they are too light to meet the requirements.

The borax works near Deep Hole are being worked to the limit. A large number of men are employed and four new concentrators lately received from the east have been placed in position. They are giving very good satisfaction. The works are producing much borax of excellent quality, for which there is a splendid market. Robert Fulton, Jr., is superintending the enterprise, the mine having been leased by Dr. Patter son to J. M. Fulton for a period of one year.

### ANNOUNCEMENT.

I have just received a complete line of working and dress shirts of the latest patterns and styles, which I will sell at bedrock prices. I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the same.

I have all the latest patterns in golf and negligee shirts, in silks and madras cloths.

I am pleased to announce that I have secured the agency of the Wheeler overall, famous on this Coast as being the best fitting and most durable overall on the market. It is riveted, triple-sewed and made of the heaviest and best denim. Try a pair and be convinced.

Free employment office in connection with the store.

ALFRED NELSON.

### OUR DRY GOODS MERCHANTS.

It is encouraging to the business interests of Reno to learn of the increase in trade there is in the town. All of our old merchants are doing a fine business, and particularly in the dry goods line is the trade improved. The Palace, Sol Levy and Sam Emrich, our old dry goods merchants, are doing well, and our late established dry goods merchant in the O'Connor block, Mr. Hildebrandt, is doing a good business. Mrs. Petrie's business is also on the increase. The new and fresh stocks of these merchants are an inducement to purchasers. Reno people are up to date on fashion and first class articles, and they will not buy second hand or old stocks when they see the goods.

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief in a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet.

### A GUBERNATORIAL VISIT.

Governor Sadler Makes the "Journal" Office a Friendly Call.

Governor Sadler, who is down from Carson attending the Grand Lodge, Knights of Pythias, paid the JOURNAL office a friendly, non-partisan and unofficial visit yesterday. He says there is nothing in the newspaper reports concerning the outcome of the gubernatorial contest, for there is nothing to base a report upon. All of the ballots are examined as they come before the court, and those objected to on either side are set apart for subsequent argument and consideration. The Governor said he had a majority of twenty-two fish in his basket; that they were well preserved on ice and were as fresh and unburned as when first taken from the water. It was a little bit of gubernatorial metaphor, presumably illustrative of the twenty-two votes in excess of his Republican opponent, as shown by the returns filed in the office of the Secretary of State.

The Governor volunteered no information concerning some little official matters which have been commented upon not altogether complimentarily by the JOURNAL, and the scribe in his position as host, with true journalistic delicacy, refrained from adding to anything that might detract from the pleasure of the visit of his guest. The interview upon both sides was marked with courtesy and decorum, and in the strictest words of the old-school showmen, "Nothing was said or done to offend the eye or ear of the most fastidious."

### A RACING FESTIVAL.

A 50-mile relay bicycle race has been arranged between the Reno and Sacramento Wheelmen. It will be held at the race track on the afternoon of July 4th. The manager of our local club met Manager McDonald of the Sacramento Wheelmen yesterday and everything was arranged for the meet.

The members of the Reno team who are absent have been informed of the proceedings and will be at once convened, or rather resume, their training.

In concluding the arrangements for the race Mr. McDonald said: "Boy, I will tell you now that we are going to bring up a better team than we did the last time."

We assuredly advise him to do so. Our present sturdy team is in good condition and a month's earnest training is still ahead of them. They will go into the race with a grim determination to win.

### MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land which is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottle of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases.

Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it.

Call on S. J. Hodgkinson, Druggist, and get a trial bottle. Regular size, 50 cents and \$1. Every bottle guaranteed, or price refunded.

### A FATAL ACCIDENT.

Andrew Frazer Meets Death by Falling from a Dray.

Yesterday evening about 4:30 o'clock Andrew Frazer fell from the top of a moving dray-load of furniture, breaking his neck.

The family were moving into their new house in Thompson's addition, south of the river, and were just in front of the house when the accident occurred.

The drayman was turning his team around in order to get near the house, Mr. Frazer having just given him directions from his position on top of the load. The drayman, following the directions, heard a noise behind, and looking around, saw Mr. Frazer falling from the wagon. Stopping his team he ran to the old man's side and raised him to a sitting position. He gasped and asked for a drink of water, which was given to him, after which he passed quietly away. Drs. Phillips and Lewis were summoned, and their examination showed that the unfortunate man's neck was broken.

Mr. Frazer was aged 71 years and six months, and was a native of Nova Scotia. He leaves a wife, one son and three daughters, all grown, to mourn his loss.

The funeral will take place Saturday afternoon from Cummings & Stockton's undertaking parlors.

### Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the result in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, rundown feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at S. J. Hodgkinson's drug store. Every bottle guaranteed.

### Probably a Fake.

The Jeffries-Fitzsimmons contest which comes off at Coney Island tonight will, in all probability, prove a fake. It has been advertised as a regular knock-out fight for keeps. The Chief of Police of New York, however, gives notice that all who attend with expectation of witnessing a slugging match will be disappointed. He says he will be there in person and will see that the State law, which allows sparing exhibitions but prohibits prize fights, is strictly enforced, and with the first hard hit that is made on either side he will promptly clear the ring.

### A SUGGESTION.

As there is prevailing among the people of Reno a desire to celebrate the Fourth of July with fitting ceremony, we suggest that those who favor the idea meet at the Court House at 7:30 P. M., next Friday evening and appoint committees of arrangements. In view of the fact that a relay bicycle race between the Reno and Sacramento teams has been dated to come off here on the afternoon of the Fourth it would be well to arrange a suitable program for the morning.

### RED HOT FROM THE GUN.

Was the ball that hit G. H. Steadman of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Buckle's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felonies, corne, skin eruptions. Best pile cure on earth. Twenty-five cents a box. Cure guaranteed. Sold by S. J. Hodgkinson, druggist.
